

WAREESHA AMEER KHAN

+92 321 2294656 | wareeshaameerkhan@gmail.com | www.linkedin.com/in/wareeshaameerkhan | www.github.com/WareeshaAmeerKhan

Computer Science student with practical experience in full-stack development, AI simulations, and database-driven systems, along with graphic designing and basic video editing skills. Focused on building efficient, secure, and user-friendly software using modern programming concepts and tools.

EDUCATION

University of Engineering & Technology <i>Bachelor of Science in Computer Science (BSCS)</i> CGPA: 3.761/4.00 (Currently in 4 th Semester)	2024 – present Lahore, Pakistan
Punjab College <i>Intermediate in Computer Science (ICS)</i> Marks: 1048/1200 (87.33%)	2022 – 2024 Lahore, Pakistan
Govt. Yasmin Islamia Girls High School <i>Matriculation (Science)</i> Marks: 107/1100 (92.45%)	2020-2022 Lahore, Pakistan

SKILLS

- **Technical Skills**
 - Languages: Python, C, C++, C#, HTML, CSS, JavaScript, SQL, React, Node.js
 - Frameworks & Technologies: .NET Framework, WinForms, JWT, Web Crypto API, MQTT, File Handling
 - Tools: VS Code, Visual Studio, GitHub, WordPress
 - Concepts: Applied Cryptography, Key Management, OOP, DSA, AI Search, IoT, REST APIs
- **Design Skills**
 - Tools: Canva, Adobe Illustrator, Adobe Photoshop
 - Expertise: Social Media Posts, Branding Materials
- **Soft Skills**
 - Problem Solving, Teamwork, Communication, Leadership, Time Management.

PROJECTS

- **StegoSec** | *Web Crypto API, JavaScript, React* **2026**
 - *Steganography & Digital Forensics Engineer*
 - Built a browser-based secure communication system using steganography, deniable encryption, and self-destructing messages.
 - Implemented LSB-based image steganography, Chi-square steganalysis, and forensic watermarking for covert data embedding and detection.
- **TriBase** | *Node.js, PostgreSQL, MongoDB, JWT, React* **2026**
 - *MongoDB Lead & Progress Tracking Engineer*
 - Interactive learning platform for databases (PostgreSQL, MongoDB, Neo4j) with lessons, quizzes, and query practice.
 - Designed and implemented MongoDB learning module, progress tracking, XP system, and MQL lesson data management as a database engineer.
- **Smart Digital Notice Board** | *HTML, CSS, JS, Node.js, MySQL, MQTT* **2026**
 - *Backend & Database Engineer*
 - IoT system integrating ESP32 hardware with web-based admin platform for real-time digital notice displa.
 - Developed backend & database system with MySQL, REST APIs, and MQTT-based real-time updates, including automated announcement expiry, timetable management, and session handling.

- **AI Search Simulator & Assistant** | *Python, C#, OOP, Data Structures* **2026**
 - *Logical Agent Developer*
 - Interactive simulator for AI search algorithms with real-time visualizations and explanations.
 - Designed and implemented a logical AI agent using knowledge base, inference rules, and context-aware response generation, with fallback response handling.
- **Logic Trace** | *C#, MySQL, WinForms* **2026**
 - *Desktop Application Developer (Full Stack)*
 - A platform for learning Data Structures and Algorithms with interactive features.
 - Implemented admin management system, feedback module, and database integration for system functionality.
- **TeleTell** | *C#, WinForms, MySQL* **2025**
 - *Software Developer (Full Stack Systems)*
 - An interactive desktop-based social media application enabling user posts, likes, and comments with an interactive interface.
 - Designed and integrated a MySQL database for efficient storage, retrieval, and management of user data and interactions.
- **AeroSync** | *C#, WinForms, MySQL* **2025**
 - *Software Developer (Full Stack Systems)*
 - A desktop-based airline management system handling flights, bookings, passengers, and payments using a layered architecture.
 - Designed and implemented a relational database with interconnected tables, along with CRUD operations, authentication, and exception handling for system reliability.

EXPERIENCE

- **Graphic Designer & Video Editor Intern** December 01, 2025 – March 31, 2026
BinAsghar Digital Marketing Agency Remote (Lahore, Pakistan)
 - Designed social media posts, marketing content, print media (standees, vouchers, branding material) and performed basic video editing for digital content.
 - Delivered design work for multiple brands including *Pakeeza Products, Aroma Signature, Zabbi Homes, Syrrab Interiors, & Bin Asghar*.

RELEVANT COURSEWORK

- Object Oriented Programming
 - Data Structures & Algorithms
 - Database Systems
 - Software Engineering
- Computer Networks
 - Discrete Structures
 - Artificial Intelligence
 - Information Security

LEADERSHIP & EXTRACURRICULAR

- **ITEC** *CS Department, UET Lahore*
 - Contributed to event planning and coordination as part of the ITEC management team. *(2025)*
- **Co-Lead** *ACM UET Student Chapter*
Design Team *(February 2024 – Present)*
 - Leading design team for creating visual content for events and social media while ensuring brand consistency and quality.
 - Coordinating with team members to manage deadlines and deliver project requirements efficiently.
